

ABSTRACT

In this application is disclosed a raw material liquid
for a carbonated beverage wherein Aspartame is used as a
5 sweetener and wherein an emulsifier having an HLB value of 1
to 14 or/and an emulsifier having a molecular weight of 50 to
300 is/are contained, according to which the problems which are
caused by the Aspartame-attributable foam can be solved by a
method free from the problems with respect to the sensory
10 aspect, safety and effect sustainability of a product.
